## Projects

### ZenLaptops

- Designed and implemented a responsive and user-friendly interface using **HTML**, **CSS**, and **JavaScript** with **Bootstrap** as the CSS framework to ensure a clean and modern design. The frontend includes features like product listings, detailed descriptions, dynamic image displays, and an interactive shopping cart system, providing a seamless user experience across devices.
- Built a robust backend using **Java EE** and **Spring Boot** to handle core functionalities such as product inventory management, user authentication, and order processing. Integrated **MySQL** as the database to store product details, user information, and order history, ensuring efficient data management and retrieval.
- Hosted the application locally for development and testing purposes, eliminating the need for external hosting or domain registration. This setup allowed for full control over the environment, ensuring smooth functionality and easy debugging while demonstrating my ability to deliver a complete, end-to-end web application.

## Volunteering

### Selling Books for Charity

06/06/2024 – 08/06/2024

Central Scientific Library of Azerbaijan National Academy of Science (Baku, Azerbaijan)

- Oversee book sales operations, assist customers in selecting books, and ensure a positive, engaging experience to maximize sales for charitable purposes.
- Supervise and guide volunteers or staff, delegate tasks effectively, and maintain smooth workflow during the event to ensure efficiency.
- Manage book inventory, track stock levels, handle cash transactions accurately, and ensure proper documentation of sales for transparent reporting.

### Instructor at a Robofest Hosted by Stemart and Kaspi

25/05/2024 – 28/06/2024

Passage 1901 (Nigar Rəfibəyli 12/14, Baku, Azerbaijan)

- Introduce young students to the basics of robotics, programming, and engineering principles in an engaging and age-appropriate manner, fostering creativity and problem-solving skills.
- Assist students in designing, building, and programming robots for competitions, providing hands-on mentorship, strategic insights, and troubleshooting support throughout the process.
- Promote collaboration, critical thinking, and resilience by fostering a supportive learning environment where students can experiment, iterate, and develop innovative solutions to competition challenges.
